

OUT-SIDER[®]

EXTERIOR PLATFORM LIFT

The Out-Sider is simply lighter,
stronger, smoother, more
adjustable, and easier to use.

 **BRUNO**[®]
for your independence

EXTERIOR PLATFORM LIFT

Transport Your Mobility Device Outside Your Vehicle With Complete Confidence

This easy to use product lifts and stores your unoccupied scooter or powerchair outside your vehicle at the touch of a button. Simply drive or roll your mobility device on the platform, press a button, and let the Out-Sider do the lifting for you. Scooters and powerchairs are automatically secured when lift is raised. Retractable belts are also available for securement.

Automatic Securement for Powerchairs (uses Hold-Tite arm)

Automatic Securement for Scooters (uses Hold-Tite foot)

Exterior Grade Securement Belts...
for both powerchairs and scooters.

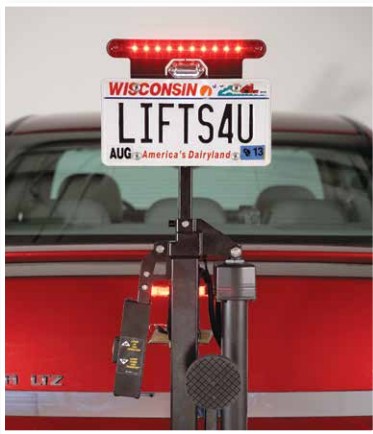

Swing-Away Option

The lightweight convenient Swing-Away option allows you to easily rotate the Out-Sider almost 180° for complete access to the back hatch, trunk or tailgate, and is angle adjustable to accommodate unlevel vehicle hitch receivers.

Option

Optional low-profile, simplified 3rd Brake Light Assembly

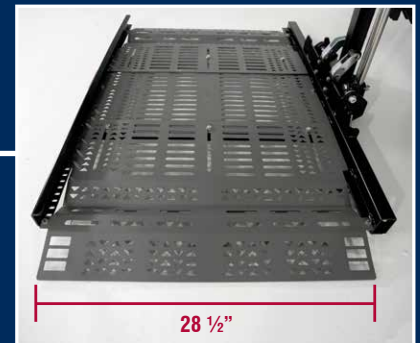

The Out-Sider works on many types of vehicles... minivans, SUVs, CUVs, pickup trucks, full-size vans and sedans

Standard Features

Easy, one button operation with built-in safety latch to prevent unintentional platform lowering

Widest Standard Platform in the Industry

Easy Drive On/Drive Off Platform

Self-Leveling Platform with Platform Traction Coating

Low-Profile Design - Provides rear view mirror visibility

Value Added Features

- Lightweight Design
- Much improved New Class II & Class III Modular Hitch Interface offers increased standard height adjustment range
- Improved design allows lift to tip towards the vehicle, as platform raises
- For sedan applications; improved mounting capability for lower height hitches; positioning the lift in a higher position, so it does not bottom out.
- Two stage E-Coat/Powder Coat paint process
